5.10 NON-CONFORMING USES

5.10.1 Continuation of Existing Uses

The provisions of this By-law shall not apply to prevent the use of any lot, building or structure for any purpose prohibited by this By-law if such lot, building, or structure was lawfully used for such purpose on the day of passing of this By-law, so long as it continues to be used for that purpose.

5.10.2 Building Permit Issued

The provisions of this By-law shall not apply to prevent the erection or use for a purpose prohibited by this By-law of any building or structure, the plans for which have prior to the passing of this By-law been approved and a permit issued by the municipality's Chief Building Official so long as the building or structure when erected is used and continues to be used for the purpose for which it was erected and provided that the erection of such a building or structure is commenced within one year after the day of the passing of this By-law and the building or structure is completed within a reasonable time after the erection thereof is commenced.

Where a building has been lawfully erected prior to the date of the passing of this By-law on a lot having less than the minimum frontage and/or area, or having less than the minimum front yard.
side yard, rear yard or usable open space required by this By-law, the said building may be enlarged, reconstructed, repaired or renovated provided said enlargement, reconstruction, repair or renovation does not serve to further reduce a required yard or required usable open space and provided all other provisions of this By-law are complied with.

5.12 **REPLACEMENT OF BUILDINGS OR STRUCTURES**

A building or structure, including a legal non-conforming and/or legal non-complying building or structure, may be replaced with a new building or structure in the case of partial or complete destruction caused by fire, lightning, explosion, tempest, flood or act of God, or demolition by order of the municipality, the local Health Unit, or other authority for safety, health or sanitation requirements, providing such building or structure is serviced by a well and sewage disposal system approved by the appropriate responsible authority. The provisions of Section 5.11 shall apply in the case of the reconstruction of a legal non-complying building or structure.

5.13 **EXISTING UNDERSIZED LOTS**

Where a lot having a lesser lot area and/or lot frontage than that required herein is held under distinct and separate ownership from abutting lots, as shown by a registered conveyance in the records of the Registry or Land Titles Office on the date of passing of this By-law, or where such a lot is created as a result of an expropriation, such smaller lot may be used and a building or structure may be erected, altered or used on such smaller lot, provided that the parcel has a minimum frontage of fifty percent (50%) or more of the minimum frontage required by the zone in which the parcel is situated, provided that an adequate supply of potable water is available to service the proposed use, provided such erection, alteration or use does not contravene any other provisions of this by-law and provided that all relevant requirements of the appropriate authority are complied with.

For the purpose of this section, a "deck" shall mean a horizontal surface supported on piers, free of any roof or other covering, and which may be surrounded by a railing, the height of which is governed by the Ontario Building Code.

5.16 **TEMPORARY USES**

Nothing in this By-law shall prevent the use of any land, or the erection or use of any building or structure for a construction camp, work camp, tool shed, scaffold, or other building or structure including a temporary sales or rental office, which is incidental to and necessary for construction work of the premises, but only for so long as such use, building or structure is necessary for such construction work which has not been finished or abandoned.
